about us

Logic Tech is a Canadian company that has been proudly servicing the dental industry for over 30 years. Our Paradigm Clinical software has been installed in over 1,000 offices across Canada.

At Logic Tech we are dedicated to merging new technologies with Paradigm Clinical to provide the very best practice management solution on the market.

As the speed of technology continues to change the landscape of our society we pride ourselves in staying abreast of the new development of these technologies.

Our objective is to utilize cutting-edge technology in providing dentists with the tools to both manage and market their business efficiently and successfully.

seamless integration

Paradigm Clinical, our comprehensive module-based software is a complete dental practice management system that offers flexibility and functionality to your office. We are also HIPAA compliant as we know the security of patient data is of the utmost importance.

For a true paperless office, we offer a full suite of modules including Odontogram and Periodontal Charting, Clinical Notes, Electronic Forms and Patient Communication.

Paradigm Clinical has the ability to access patient data from each clinic from a single user log-in which allows you to manage all your clinics from one single location. Let us grow with you – whether you have a single office or multiple offices.

Clinical Solution

Paradigm Clinical has innovative modules to offer flexibility and functionality to your office.

Paradigm Clinical is constantly evolving with the ever-changing landscape of dentistry by offering an innovative, easy-to-use interface and a comprehensive newly-designed module for Periodontal and Odontogram Charting, and Clinical Notes.

Odontogram
Periodontal
Charting
Clinical Notes
Electronic
Forms

through innovative solutions.

Clinical Solution

To alleviate the burden of excessive paperwork for the practice and the patient, our Electronic Forms module has the ability to electronically create and customize forms, such as registration, medical history and consent.

We make it simple! A patient fills out a form on a tablet, submits it electronically and the results are updated to Paradigm Clinical in real-time. With our Electronic Forms module there is no need to scan countless documents.

Clinical Solution

digital odontogram

An electronic clinical chart should reflect what a traditional paper chart looks like and this is precisely what our digital odontogram does!

All elements of a paper clinical chart are represented in the digital odontogram.

through innovative solutions.

Clinical Solution

treatment planning

You can create, present, select and track all treatment proposals directly from the patient's odontogram. The Treatment Planning module is fully integrated with Paradigm Clinical, allowing you to schedule appointments immediately upon acceptance of proposals.

The more options you can offer your patients, the more likely they will accept treatment sooner. This makes managing your recalls much easier and will increase your overall patient retention.

mobile dentistry

With our Paradigm Clinical app, you can view your patient appointments, ledgers and patient data from anywhere on your mobile device. This brings you the convenience of remotely accessing your practice data from home, work or even at the cottage.

management dashboard

make sure you are asking the right questions

Logic Tech has proven its leadership in the industry by incorporating a financial and production management dashboard in Paradigm Clinical to track the operations of your practice using customizable key performance indicators (KPI).

Combined with your management expertise, these cutting edge tools provide everything you need to develop your own Decision Support System. It's the key to your growth!

what is my
productivity
ratio? per
dentist? per
hygienist?

what about
my accounts
receivable?

what is my
operating
expense
ratio?

how can I
increase my
profitability?

patient communication

Take your practice to the next level of patient communication with our SMS/text and email messaging.

Our system will automatically send out appointment confirmations, pre-confirmations, recare reminders and birthday greetings to your patients.

Save your valuable time by allowing patients to confirm their own appointment

One
Automated message confirmation is sent to a patient

Two
Patient confirms by email or SMS/text message

Three
Results are updated to Paradigm Clinical in real time.

three

support and training

We have a team of qualified representatives to help with every step of the way! We are here to guide and assist you throughout the entire process of either going paperless or converting to Paradigm Clinical.

We understand the process may seem daunting but you have the full support of our technical and hardware team. Our goal is to ensure the transition is seamless!

We offer in-person training based on your level of knowledge – even if you have never used Paradigm Clinical, our instructors have the expertise in catering to new users! We even offer on-site specialized training for our Clinical module.

As Paradigm Clinical is constantly evolving we offer online continuing education to ensure you have the full knowledge of the capabilities of Paradigm Clinical.
