ABOUT US

Logic Tech Corp is a Canadian company that has been proudly servicing the dental industry for over 30 years. Our **Paradigm Clinical+** software has been installed in over 1,000 offices across Canada.

At Logic Tech, we are dedicated to merging new technologies with **Paradigm Clinical+** to provide the very best practice management solution on the market.

As the speed of technology continues to change the landscape of our society, we pride ourselves in staying abreast of the new development of these technologies.

Our objective is to utilize cutting-edge technology in providing dentists with the tools to both manage and market their business efficiently and successfully.

SEAMLESS

integration

Paradigm Clinical+, our comprehensive module-based software is a complete dental practice management system that offers flexibility and functionality to your office. We are also HIPAA compliant as we know the security of patient data is of the utmost importance.

For a true paperless office, we offer a full suite of modules including Odontogram and Periodontal Charting, Clinical Notes, iForms, IntelliReach, IntelliForm, and IntelliDoctor.

Paradigm Clinical+ has the ability to access patient data from each clinic from a single user log-in which allows you to manage all your clinics from one single location. Let us grow with you – whether you have a single office or multiple offices.

CLINICAL

solution

Paradigm Clinical+ has innovative modules to offer flexibility and functionality to your office.

Paradigm Clinical+ continues to evolve with the ever-changing landscape of dentistry by offering an innovative, easy-to-use interface and a comprehensive newly-designed module for Periodontal and Odontogram Charting, and Clinical Notes.

CLINICAL

solution

To alleviate the burden of excessive paperwork for the practice and the patient, our iForms module has the ability to electronically create and customize forms, such as registration, medical history and consent. The results are updated in real time. Logic Tech also now has a new powerful online form builder, [IntelliForm](#). This new platform allows a patient to access the online forms from anywhere on their mobile phone.

solution

DIGITAL ODONTOGRAM

An electronic clinical chart should reflect what a traditional paper chart looks like and this is precisely what our digital odontogram does.

All elements of a paper clinical chart are represented in the digital odontogram, making transition to paperless charts easy and seamless.

All the charts are stored on the database with the corresponding patient, making them easily accessible on any station connected to the server.

CLINICAL

solution

TREATMENT PLANNING

You can create, present, select and track all treatment proposals directly from the patient's odontogram. The Treatment Planning module is fully integrated with **Paradigm Clinical+**, allowing you to schedule appointments immediately upon acceptance of proposals.

The more options you can offer your patients, the more likely they will accept treatment sooner. This makes managing your recalls much easier and will increase your overall patient retention.

INTELLIFORM

IntelliForm is our new cloud-based online forms platform.

It is an easy-to-use form builder that can efficiently and effectively meet the needs of your office. **IntelliForm** can quickly collect data from the online forms and integrate them with Paradigm in real time.

Once the forms are created by the office, a link is then sent via text or email to your patient's phone. The patient is then able to fill out the online form from anywhere and anytime!

INTELLIREACH

IntelliReach is an extension to our Paradigm software, which give dental offices the tools to engage with their patients.

Our new innovative platform includes our patient engagement modules such as My Contact Pro, SMS, Newsletter and Email.

The purpose of **IntelliReach** is to save valuable time by automating time consuming tasks.

The **IntelliReach** modules are fully integrated with Paradigm and responses from patients are updated in real-time.

INTELLIDOCTOR

With our **IntelliDoctor** module, you can view your appointment book from outside your office.

This brings you the convenience of remotely accessing your practice data from home, or even at the cottage.
